

38. *All Nations Cup*
25. - 26. September 2021
Aachen, Soers

Back again

Dear friends of the Arabian Horse and the All Nations Cup!

In 2020, after 37 years, we had to cancel our great event in Aachen for the first time due to pandemic.

This was a bitter loss not only for us as organisers, but especially for the many breeders worldwide for whom the ANC is an integral part of their year.

Now the time has come again:

We are now looking forward to holding the ANC 2021!

It is important to build the bridge to the 2022 event this year.

Under the heading "Between pandemic and normality", we are making every effort to hold this year's event in the best possible way while complying with given regulations and hygiene concepts. We don't know yet how many spectators will be allowed into the arena hall, but we will do everything in our power to create a hygiene concept that causes as few restrictions as possible.

However, all this will only be possible if you, as owners and trainers, enter your wonderful horses for participation and we, as organisers, get the financial support of our sponsors.

This year we are more than ever dependent on your financial support. Without your help, this event is not possible.

By holding ANC 2021, we want, as always, to join you in setting an example of togetherness, cohesion and responsibility, while looking forward to the coming year with hope.

Let us join forces to ensure that our beautiful Arabian horses can now finally present themselves to the public again – even though limited in number - and that we may all enthusiastically indulge in this fascination!

We look forward to your support and to seeing you all again on the last weekend in September in Aachen in good health!
